

## AUTOMATIC ODOUR CONTROL SYSTEM

**Freshness through fragrance and technology with customised programming giving total control**

- The Airoma I.P.E. system delivers optimum performance and programmable fragrance intensity control
- For use in washrooms, meeting rooms, reception areas and offices

### AIROMA FRAGRANCES

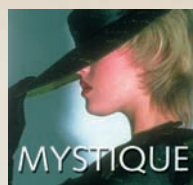

Airoma fragrances contain *Airomanol*<sup>™</sup> odour counteractant to neutralize malodours and deliver maximum fragrance, impact and presence.

Airoma fragrances are modern and offer style, type and impact options to match all preferences.

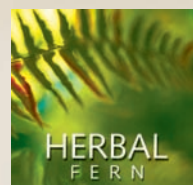

All Airoma fragrances are complex, long lasting and combine with the *Airoma I.P.E.* dispenser to provide a unique and supremely effective system.
