

AUTOMATIC OZONE GENERATOR

Harnessing nature's power, bringing outdoor freshness indoors. Prozone® cleans and rejuvenates the air we breath, refreshing the atmosphere.

In nature ozone is produced by the action of high energy discharges in lightening on oxygen in the atmosphere. Prozone recreates this natural process. The ozone produced destroys harmful micro-organisms with which it comes into contact and breaks down malodour compounds neutralizing the unpleasant smells they produce. Because ozone is a gas it penetrates to even the most inaccessible locations. The process leaves no chemical residue, all 'unused' ozone reverts to oxygen within a short time.

- For use in washrooms, hospitals, care homes and changing rooms

FEATURES

- Neutral clean-white ABS casing (compatible with any decor)
- LED confirms power on
- Adjustable ozone production to match room size
- LED confirms rate of ozone production
- Programmable ozone production – Day only/night only/ 24 hours
- Cassetted design for ease of installation and servicing
- Suitable for fixed installation or portable applications

SPECIFICATIONS

- Dimensions 230mm(h) x 161mm(w) x 100mm(d)
- Construction Flame retardant ABS
- Voltage 220V-240V/110V
- Power Rating 12 watts
- Ozone Production 10mg/h (low)
20mg/h (med)
40mg/h (high)
- Room Volume Up to 100 cubic metres
- Standards BS EN 60335-1
BS EN 60335-2
EMC Directive 89/336/EEC

INSTALLING PROZONE WILL:

Reduce bacterial growth on surfaces

- Door handles/locks
- Tap controls
- Sinks and surrounding surfaces

Eliminate unpleasant malodours and create a pleasant outdoor fresh atmosphere.

Destroy

- Bacteria
- Viruses
- Pollen
